# ■ What the Index 100 Represents

The Index 100 is the flagship annual recognition of corporate excellence in Botswana. It identifies and celebrates organisations that demonstrate outstanding performance across the core pillars of governance, leadership, innovation, and social/institutional impact.

**Governance • Leadership • Innovation • Social Impact**

# ■ Who it is for

## Corporates

Private sector organisations demonstrating governance maturity and operational excellence in their respective industries

## State-Owned Enterprises

Public sector entities meeting institutional standards for transparency, accountability, and national impact

## NGOs & Civil Society

Organisations with formal governance structures and measurable, transparent social outcomes

## Institutions

Research bodies, professional associations, and knowledge platforms that drive the standards of their sectors.

## ■ Inclusion Signals

- **Ethics & Integrity:** High standards of professional conduct and demonstrated ethical frameworks.
- **Effective Leadership:** Mature leadership structures with proven continuity and vision.
- **Innovation Capability:** Demonstrated capacity to adapt, modernize, and lead through technology.
- **Institutional Impact:** Meaningful contribution to the social and economic fabric of Botswana.

It is a mark of institutional maturity - a credible, external validation that an organisation operates at a level of excellence that can be benchmarked both locally and internationally.

# ■ Inclusion Signals

The Index 100 operates on a rigorous annual cycle of evaluation, data validation, and publication. Following the success of the flagship 100, the roadmap includes:

- **Index 400 & 500:** Expansion into mid-cap and emerging sector benchmarks.
- **Brand Excellence Summit:** The annual intellectual gathering for Botswana-based leaders.
- **BAID Brief:** Botswana Artificial Intelligence Development

# ■ Submit Nominee Votes & Recommendations

**Formally register your organisation for the current evaluation cycle.**
