# ■ What Index Group is

Index Group is a platform, not an event company. It serves as the parent structure for a family of national indexes in Botswana, providing a unified framework for corporate excellence recognition.

2026-2027**

## ■ Our Mission

The landscape of corporate recognition in Botswana has long been fragmented - disparate awards, inconsistent standards, and limited comparability. Index Group exists to address this by creating a single, authoritative, governance-first standard that enables meaningful evaluation and benchmarking across sectors and over time.

**Innovation**

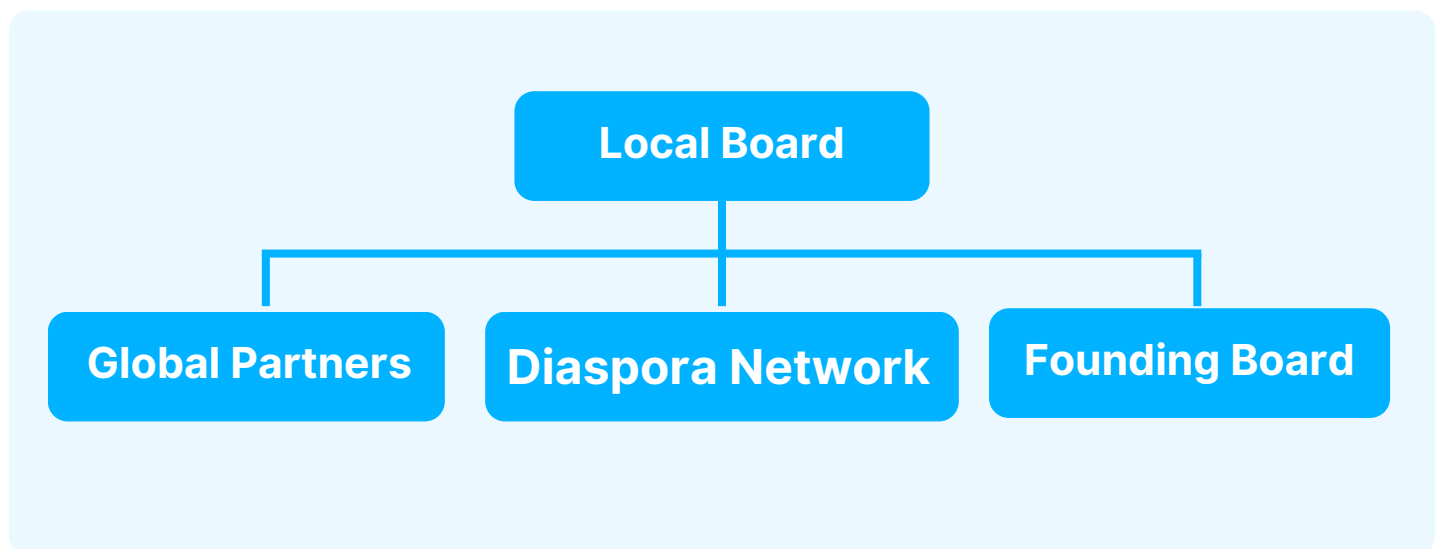

**Impact**

**Core Pillars of Recognition**

## ■ Governance Structure

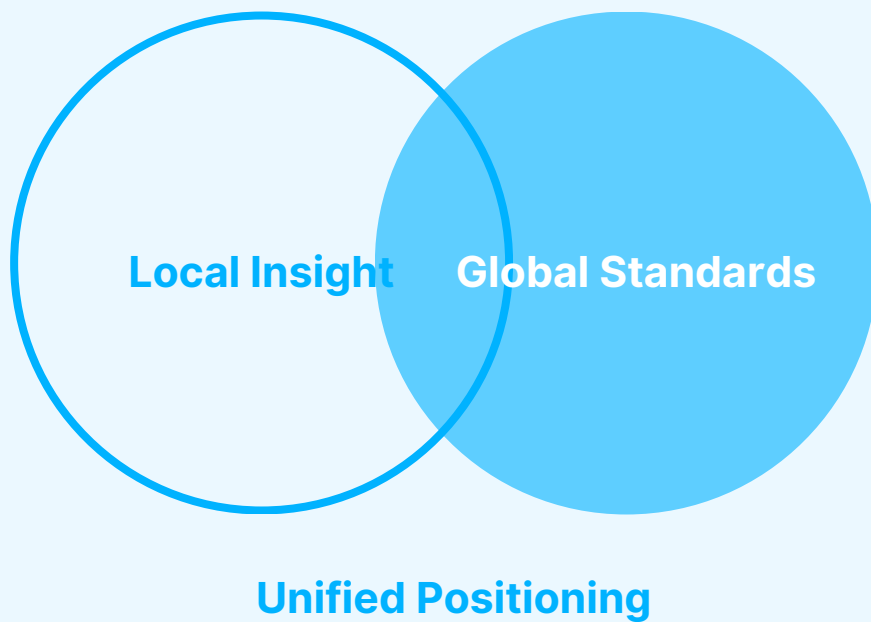

Index Group is built with a decade-scale, archival mindset. It is not a short-term initiative or annual ceremony. The platform is designed for permanence: annual cycles, historical data-preservation, continuous refinement, and institutional legacy-building in Botswana's corporate ecosystem.

- Local Advisors
- International Advisors
- Diaspora, Peace Corps Alumni & Expatriate Alumni

## ■ Governance Structure

At its core, Index Group prioritizes governance above all else. Recognition is earned through demonstrated integrity, transparency, leadership maturity, and institutional strength — never through sponsorship, marketing, or relationships. This governance-first approach ensures credibility, independence, and long-term trust among stakeholders, regulators, investors, and the public.
